SAT NAV: NR25 7AA

When visiting North Norfolk why not join us on one of our daily boat trips to see the seals and birds in their natural environment at Blakeney Point. Beans Seal Trips are a family run business for over 50 years and are a very popular and safe way to enjoy a close up view without disturbance. We run every day throughout the season (April until end October) and also regularly throughout the winter. We can only operate on the tide, therefore, departure times change daily. Some of the times are shown on our timetable, others are put on extra, please phone, email or visit our website for more details. www.beansboattrips.co.uk

To ensure a place simply give us your name over the phone, we will then reserve your seats and ask you to collect and pay for them 30 mins before sailing. Once you have collected your tickets you will be ready to depart in one of our five purpose built ferries which are fully licensed & hold full safety equipment (make sure you look for orange and white boats to avoid confusion). The boat will wind its way out of the creek & into Blakeney harbour, we then head for the far point (we don't go out to the open sea) We sail very close to the seals and there is ample time to take photographs & the knowledgeable crew are happy to answer any questions. Here there is also a good opportunity to do a spot of birdwatching.

The seal colony is made up of common & grey seals & numbers are around 500 so we will generally always see some. The common seals pup between June & August, & the grey between October & December.

After seeing the seals we will land you on Blakeney point when possible depending on the tidal & weather conditions. The National Trust took over the point in 1912, & is an international breeding ground for migrant birds e.g., common, sandwich & arctic terns. You may like to have a look at these birds from one of the hides located at prime sites or take a stroll up to the Old Lifeboat House which is now an information centre. The seal trip on its own lasts approx. one hour, time spent on Blakeney Point is added to this usually half an hour to an hour depending on the tide and weather - **DON'T FORGET YOUR CAMERA!**
