When visiting North Norfolk one of the highlights has to be a BEANS BOAT TRIP out to see seals and birds in their natural environment at Blakeney Point. Managed by the National Trust since 1912, it is an international breeding ground for migrant birds such as common, sandwich, little and arctic terns and is also a International Site of Scientific Interest as well as an Area of Outstanding Natural Beauty and with its amazing 'big blue skies' and stunning landscapes an experience not to be missed.

The famous seal colony at Blakeney Point is made up of Common and Grey Seals and in winter is now recognized as the largest Grey Seal Colony in England. The best way to get close to the seals, without disturbing them is by boat and BEANS BOAT TRIPS are a family-run business that have been taking people out to the Point for over 80 years. Boats run every day from MORSTON QUAY throughout the season (March until the end of October) and also regularly through the winter. Please note we can only operate on the tide so departure times change daily.

Our trips are a very popular and safe way to enjoy a close up view of the seals and wildlife without disturbance so it's recommended (essential during holiday periods) you book ahead. Just give us a call and we will reserve your seats, we will also explain where to meet us to collect and pay for your tickets (you can pay cash or card on the day). Please be patient if you can't get through straight away as the phone lines can get very busy. (Generally it's often quieter during the afternoon to call).

Once you have your ticket you will be ready to depart from Morston Quay on one of our purpose built ferries. (Look for the orange and white boats and crew dressed in orange tops to avoid confusion). All our boats are fully licensed by the MCA, insured and carry full safety equipment.

A seal trip lasts about 1 hour. The boat will wind its way out of the creek and into Blakeney Harbour, we then head to the Far Point to see the seals basking on the sandbanks and swimming in the water (Boats stay within harbour limits we don't go out to sea) We generally get very close to the seals and there is ample time to take photographs as well as a good opportunity to do a spot of bird watching. The knowledgeable crew will keep you informed and answer any questions you may have.

The seal colony, both common and grey seals average around 500 but numbers and sightings vary from day to day, although in winter, numbers can increase to thousands as the grey seals have their pups during November and December (the common seals have their pups between July & August). It's safe to say that we usually see some seals every time - the question is how many?!

BEANS BOATS are also the perfect choice for booking a Private Charter. We have three boats currently operating so we can also cater for coach parties, groups and bookings for special groups such as schools and educational tours - discounts available - please telephone or email us to discuss this. (More information is on our website).
